## Active Ingredients

### Caviar Marine

Caviar extract is the best anti-aging ingredient that the sea offers; it is high in amino acids, Omega fatty acids and other nutrients, which delivers deep anti-aging action that makes the skin appear visibly firmer, plump, youthful and fresh. It provides intense hydration and moisturizing effects and supports skin cell renewal, promotes collagen production, and reinforces the skin's natural defences against environmental pollutants.

### *Malus domestica* Extract

A liposomal active ingredient derived from apple stem cells promotes the skin stem cells' vitality and longevity. It protects the skin from damage caused by environmental stress, hence delays the skin aging process.

### Hyaluronan

Hyaluronan is a glycosaminoglycan that is vital for skin rejuvenation and hydration. It can hold moisture and revitalize the skin's surface for softer, smoother, and radiantly hydrated skin. Due to its capacity to retain large amounts of moisture, it also reduces the appearance of existing wrinkles and prevents new wrinkle formation caused by dry skin.
