

Placenta 3R DNA Spray

Bioactive Placenta Peptides

Lightweight Formula

0% Preservatives

WHAT IS MF3 PLACENTA 3R DNA SPRAY?

MF3 Placenta 3R DNA Spray is formulated with nanosized placental peptides that can penetrate the outer layer of the skin into the stratum corneum, triggering the production of collagen and elastin as well as soothing skin inflammation.

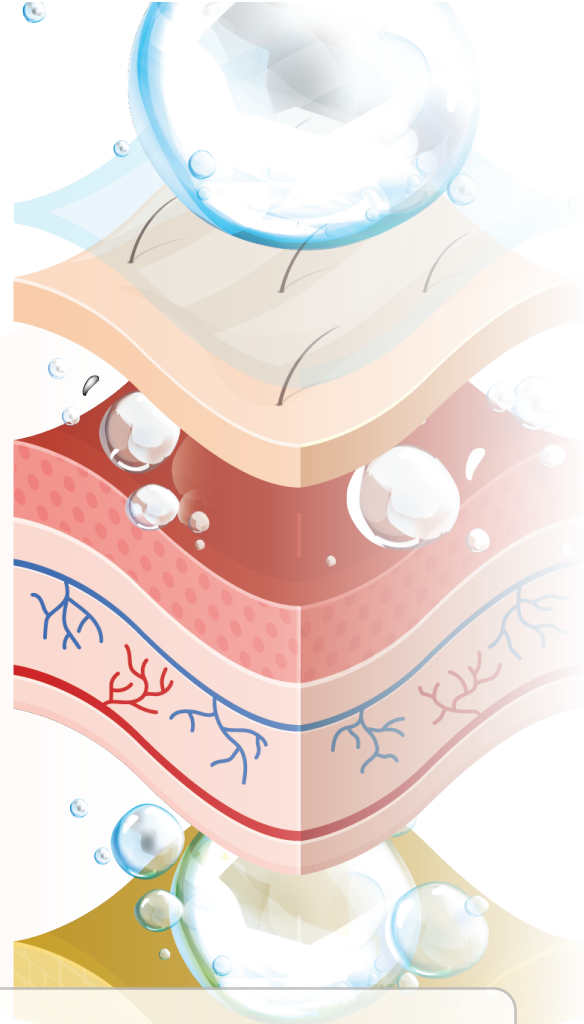

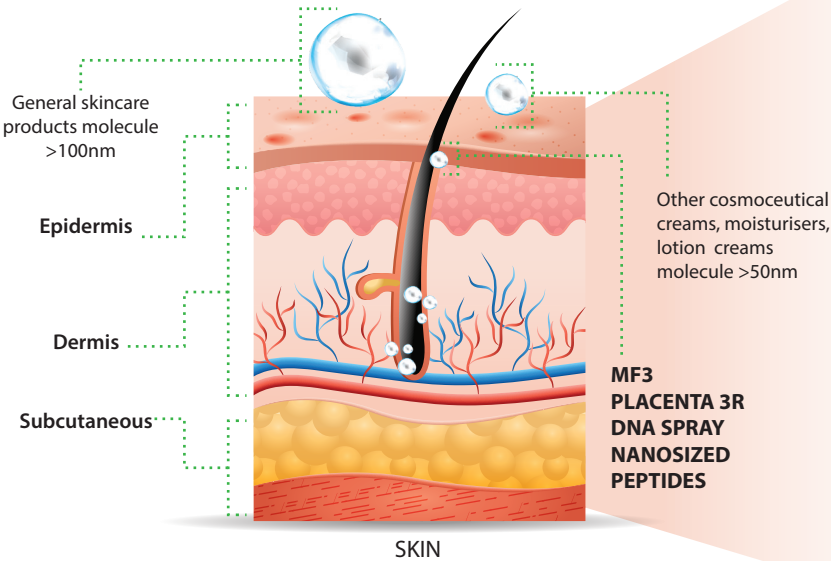

Introducing the MF3 Placenta 3R DNA SPRAY, now with a new formulation designed to efficiently deliver the placental peptides into the skin to address skin issues effectively. The new formulation works by primarily activating the mitochondria of the human fibroblasts and promotes the production of type I collagen, which will contribute to the improvement of skin elasticity and reduction of wrinkles. Placenta 3R DNA SPRAY is also preservative free and is suitable for different skin types!

Overall Benefits

-  Accelerates skin healing process
-  Promotes collagen production & skin elasticity
-  Diminishes fine wrinkles
-  Increases skin hydration
-  Alleviates skin inflammation
-  Improves skin textures
-  Strengthens skin barrier

HOW IT WORKS?

Placenta 3R DNA SPRAY is a great alternative for those who are afraid of undergoing placenta peptides injection but wish to attain similar results. The placental peptides used in Placenta 3R DNA SPRAY have a comparable composition with the placenta extract applied for mesotherapy procedure. However, it is designed with smaller sized, 3nm placental peptides, which allows the product to be delivered into the skin without needles injection.

HOW TO USE?

First step of the skincare routine after cleansing. Spray onto cleansed face or neck, pat dry and proceed with the second step of your skincare routine. Can be used in the morning and night time.

Pair it with (A) Placenta 3R Serum or (B) Caviar Marine 3R Serum for better results! Works well with Niacinamide, Hyaluronic acid and (C) Bluecell Extracts AF2, or other antioxidants/hydrators. Avoid layering with AHA, BHA, PHA, Retinol, or other Direct Acids (can be used alternately).

Cleanser

Placenta 3R DNA Spray

Massage and pat dry

Placenta / Caviar Marine 3R Serum

Bluecell AF2

For maximum results, it is recommended to pair Placenta 3R DNA SPRAY with MF3 3R Serum.
